

Figure 3. Disease × state reporting matrix, Nigeria 2006-2023

A. Reported new outbreaks shaded within each column

	Rabies	HPAI	Tryp. ¹
Plateau	469	303	2
Bauchi	93	60	5
Lagos	3	137	3
Niger	5	11	54
Gombe	34	15	2
Federal Capital Territory	9	29	10
Nasarawa	2	22	3
Oyo	6	18	2
Kwara	6	1	18
Adamawa	4	11	5
Jigawa	4	12	4
Enugu	1	9	7
Osun	14	1	2
Anambra	1	11	4
Zamfara	2	7	2
Kogi	3	1	3
Kano	66	250	.
Kaduna	72	68	.
Delta	10	41	.
Katsina	6	44	.
Ogun	3	44	.
Edo	2	25	.
Kebbi	21	4	.
Bayelsa	6	10	.
Benue	13	2	.
Akwa Ibom	14	1	.
Ebonyi	11	3	.
Ekiti	11	2	.
Taraba	4	9	.
Borno	2	8	.
Ondo	5	.	4
Sokoto	1	7	.
Yobe	3	3	.
Imo	5	1	.
Rivers	.	56	.
Cross River	12	.	.
Abia	.	5	.

B. Years with a report (of 18) shared 0-18 scale

	Rabies	HPAI	Tryp. ¹
Plateau	13	8	2
Bauchi	11	8	2
Lagos	1	7	1
Niger	4	2	10
Gombe	7	4	1
Federal Capital Territory	5	6	2
Nasarawa	1	8	2
Oyo	2	6	2
Kwara	5	1	3
Adamawa	4	4	1
Jigawa	2	5	1
Enugu	1	4	3
Osun	9	1	1
Anambra	1	5	3
Zamfara	1	3	2
Kogi	2	1	1
Kano	9	10	.
Kaduna	12	7	.
Delta	3	6	.
Katsina	3	7	.
Ogun	3	7	.
Edo	2	7	.
Kebbi	5	3	.
Bayelsa	4	4	.
Benue	8	2	.
Akwa Ibom	2	1	.
Ebonyi	5	2	.
Ekiti	5	2	.
Taraba	3	2	.
Borno	2	3	.
Ondo	3	.	3
Sokoto	1	3	.
Yobe	3	2	.
Imo	4	1	.
Rivers	.	6	.
Cross River	4	.	.
Abia	.	3	.

States ordered by number of diseases reported, then by cumulative outbreaks. '.' = the state reported that disease in no study year.
Panel A is shaded column-wise because the three diseases differ by an order of magnitude; shading is NOT comparable across columns — the printed numbers are.
Cumulative count (A) and persistence (B) measure different things and rank states differently.
¹ Tryp. = Trypanosomosis (tsetse-transmitted); reportable under this WAHIS name only to 2021, so its column covers 2006–2021, not 2006–2023.
